PROFESSIONAL SUMMARY

Computer Science undergraduate building products from concept to execution, with experience independently developing healthcare and fitness solutions and leading a 65-member technical club. Interested in Product Management at the intersection of technology, user experience, and business strategy, with a focus on solving real-world problems through structured decision-making and continuous iteration.

EDUCATION

Vellore Institute of Technology, Bhopal | May 2027

B.Tech, Computer Science and Engineering (AI & ML) | CGPA: 8.63

SKILLS

Product: Product Thinking, Product Strategy, User-Centric Thinking, Requirement Analysis, Feature Prioritization, Product Roadmapping, User Journey Mapping

Leadership: Team Leadership, Stakeholder Management, Cross-functional Collaboration, Decision Making, Execution

Technical: SQL, Ms Excel, Python(Data analysis), Pandas

Tools: Figma, Git, GitHub, VS Code, Supabase

PROJECTS

Medi-Genie | Healthcare Product

- Ideated and launched a healthcare platform to simplify appointment booking and medication management, addressing local accessibility gaps.
- Identified recurring accessibility challenges through secondary research and feedback from potential users, shaping the MVP feature set.
- Led the full product lifecycle, from initial requirement analysis and feature prioritization to final design and implementation.

Smart Fitness Trainer | Personal Product

- Identified the lack of real-time form guidance as a major barrier for home-fitness users, driving the product requirement for a vision-based solution.
- Designed an intuitive user journey focused on immediate feedback loops, enhancing workout consistency and user engagement.
- Iterated on the product based on general performance data, optimizing the coaching system for better accuracy and user experience.

Pahal Interface (PAHAL EPICS) | Community Service Project

- Led a 5-member team to build a platform for NGO operations, balancing complex technical requirements with community-centric needs.
- Coordinated between stakeholders to define project scope, effectively balancing technical constraints with community impact goals.
- Prioritized key operational features, delivering a tool that streamlined volunteer coordination and impact reporting.

LEADERSHIP EXPERIENCE

BitByBit Technical Club | Lead of Operations | Jun 2025 – Apr 2026

- Led operational strategy for a 65-member technical club, successfully executing three flagship events including a major university-wide fest which led to the most successful event of the whole fest among 100+clubs.
- Managed stakeholder relationships and resource allocation during events, ensuring smooth delivery and high participation rates.
- Resolved operational bottlenecks and optimized team workflows, resulting in improved productivity and event success.

BitByBit Technical Club | Social Media Lead | Dec 2024 – Apr 2026

- Transformed social media strategy through data-driven analysis of audience behavior and content trends, significantly increasing engagement.
- Experimented with content strategies to grow the club's visibility, establishing it as one of the most recognizable technical pages on campus.
- Led a team of six to execute a cohesive communication strategy, aligning brand identity with student community interests.

CERTIFICATIONS

- AWS Certified Cloud Practitioner | AWS
- Cloud Computing | NPTEL
- Machine Learning in Python | Coursera
- T-Hub Innovation Workshop | T-Hub

EXTRACURRICULAR ACTIVITIES

- NCC: Awarded "A" Certificate; demonstrated leadership, discipline, and adaptability.
- Service: Volunteer, Swachh Bharat Abhiyan.
- Competition: Active participant in University Hackathons.
- Exhibitions: Project Head of two college technical exhibitions; managed team and logistics.
